Lippert Components® agrees to purchase replacement glass assets from Atwood Mobile Products

Elkhart, IN -- Lippert Components, Inc. (LCI®) has agreed to acquire the remaining inventory and replacement glass assets of Atwood Mobile Products, a subsidiary of the Dometic Group. Atwood's replacement glass business will be transferred to LCI's Duncan Systems division, located at 29391 Old US Highway 33 in Elkhart. LCI has also acquired the rights to easyrvwindows.com, Atwood's online ordering website that allows customers to easily configure replacement windows for RVs.

"For more than 25 years, Duncan Systems has been a leading replacement glass provider in the RV and heavy trucking industries," said Scott Mereness, President of LCI. "When Atwood decided to terminate its replacement glass business, it was a logical move for LCI to purchase their remaining assets and integrate them into our current infrastructure at Duncan."

Brent Watson, President of Duncan Systems, is excited for the added opportunities. "We service a wide variety of glass and body shops, dealers and insurance companies already. The Atwood replacement window business is a natural fit for us. We look forward to providing a high level of service to Atwood's former customer base that current Duncan customers have enjoyed for many years."

LCI will be sending out a letter to all known Atwood customers alerting them of the changeover in the coming weeks. For more information, visit Duncan Systems online at rvglass.com or call 800-551-9149. Customers will also be able to continue to use easyrvwindows.com for convenient online window replacement quoting.

About Lippert Components®

From 44 manufacturing facilities located throughout the United States and Canada, Lippert Components, Inc. (LCI®), a subsidiary of Drew Industries Incorporated (NYSE:DW), supplies a broad array of components for the leading manufacturers of recreational vehicles and manufactured homes, and to a lesser extent supplies components for adjacent industries including buses; trailers used to haul boats, livestock, equipment and other cargo; pontoon boats; modular housing; and factory-built mobile office units. Drew's products include steel chassis; axles and suspension solutions; slide-out mechanisms and solutions; thermoformed bath, kitchen and other products; windows; manual, electric and hydraulic stabilizer and leveling systems; chassis components; furniture and mattresses; entry, luggage, patio and ramp doors; electric and manual entry steps; awnings and slide toppers; LED televisions and sound systems; navigation systems; wireless backup cameras; other accessories; and electronic components. Additional information about Lippert Components and its products can be found at LippertComponents.com.
