Connecting to OneControl Wireless
with an Apple iOS device

1. After installing the OneControl app from the Apple App store, you will need to connect your iOS device to OneControl Wireless before continuing. Connecting your iOS device to OneControl Wireless is the same as connecting to your home Wi-Fi
A. On your device open **Settings**
B. Select **Wi-Fi**
C. Under **Choose a Network** find the Wi-Fi that matches the SSID on your OneControl Wireless system
D. Tap the correct network
E. Enter the password included on your OneControl Wireless system
F. After the network connects successfully you can return to OneControl

2. Open OneControl

3. Tap **I Accept** on the EULA view

4. Tap **Get Started** on Welcome Screen

5. Select **Wi-Fi** when prompted

6. Type in a PIN number to prevent unintended access to your coach

7. After the OneControl has successfully connected to the coach, tap **Continue** to finish the setup
