

Tying down the cover:

The snugness of the cover is the single most important factor for insuring troublefree boat cover life. Each and every tie down loop must be securely tied to either the boat or trailer using rope, shock cord, or straps. (NOTE: If tying off to the trailer, the boat MUST be rigidly fastened to the trailer.) Before tightening, the cover must be properly supported and padded.

Cleaning the cover:

Wash boat covers with mild soaps. Use a garden hose to rinse dirt off. Never use harsh chemicals, cleaners or solvents on your cover.
